## THE BEST AND THE REST

Marion Smith garden figure 'Aoife' £3,800

The eclectic selection of top lots selling in excess of £1,000 sums up the current market. Furniture has to be of notable quality and incorporate unusual or quirky design elements to generate interest in the saleroom. Collectables have to be rare and interesting examples, not the run of the mill. The rest remains in the doldrums with some remarkable bargains available for those who dare to buck the trend and buy 'brown'. Internet bidding is now close to 50% of all bids with a third of the buyers online, typically up against the remaining stalwarts in the room. That said the interesting blend of lots, roughly ordered chronologically rather than by category, led to a full room and a more rewarding auction experience for all concerned. Next week sees our Asian sale followed in June by the main Summer Fine Sale, entries for which close at the end of this month.

African carved wood walking stick £3,000
